

Master of Science

At Northeastern University's D'Amore-McKim School of Business, we prepare students to be responsible global business leaders who thrive in a digital world. Our master's degree programs (<https://damore-mckim.northeastern.edu/catalog-ms-programs/>) help students build specialized expertise and gain a competitive advantage.

In our innovative master's programs, students learn across borders and get ready to make a real impact. They benefit from our esteemed business faculty including consultants, startup founders, and respected management leaders. Plus, they study alongside classmates from varied industries who share their passions and interests.
