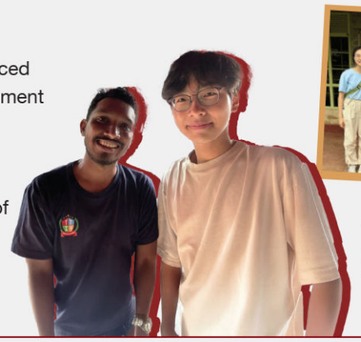
PROGRAMME FEATURES

HOLISTIC CURRICULUM	Engage in a holistic curriculum that combines problem-based learning, simulation education, interprofessional collaboration, life enrichment programmes and more.
INTERACTIVE AND INNOVATIVE	Train in cutting-edge clinical settings across Hong Kong, with high-fidelity simulators and VR, gaining hands-on skills that prepare you for the future of nursing
ADVANCED LEADERSHIP TRACK (ALT)	For students aiming for specialised nursing practice or nurse-physician careers
TWO ARTICULATION PATHWAYS (Only applicable to ALT students)	• BNurs + MNurs in 6 years • BNurs + MBBS in 9 years* * The MBBS pathway requires Chemistry or Biology at the HKDSE, First Class Honours in BNurs, and a successful MBBS interview
#SCHOLARSHIPS	• Entrance Scholarship in Nursing: HK$10,000 for students with a HKDSE Best 5 score of 28–30.5 • Academic Elite Scholarship in Nursing: Full first-year tuition fees for students with a HKDSE Best 5 score of 31 or above, renewable for years 2–5 based on academic merit

"**The HKU Nursing programme** combines hands-on clinical training with theory, guided by experienced instructors, while fostering critical thinking. The life enrichment programme allowed me to explore my passion for volunteering, ultimately leading me to Uganda and Sri Lanka, where I helped communities and cared for patients—experiences I'll never forget. The HKU School of Nursing isn't just about academics; it's a transformative journey that develops your skills and compassion, preparing you for a meaningful career in nursing."



THOMAS WONG
BNurs
Year 4 student

WHAT YOU WILL STUDY

The BNurs curriculum blends academic study with hands-on clinical training, simulation education, and interprofessional learning. Designed to develop well-rounded nursing professionals, the programme gives students the knowledge, skills, and global perspective needed to deliver high-quality care and contribute to the advancement of the nursing profession.

YEAR 6		1-year part-time study to complete the MNurs curriculum	4-year full-time study to complete the MBBS curriculum
YEAR 7-9			

"**Studying at the HKU** School of Nursing has been an enriching experience. The various modes of learning keep things interesting, such as skills lab sessions that connect nursing theories with clinical practice, interprofessional collaboration with peers from different disciplines, and technology-enriched learning that builds critical thinking skills and safe nursing practices. Another exciting feature is the semester of enrichment activities, which includes exchanges with universities around the world, humanitarian activities, and research attachments. We can contribute to meaningful projects that address real-world health challenges, learn to see nursing from a global perspective, and gain knowledge from the world around us."

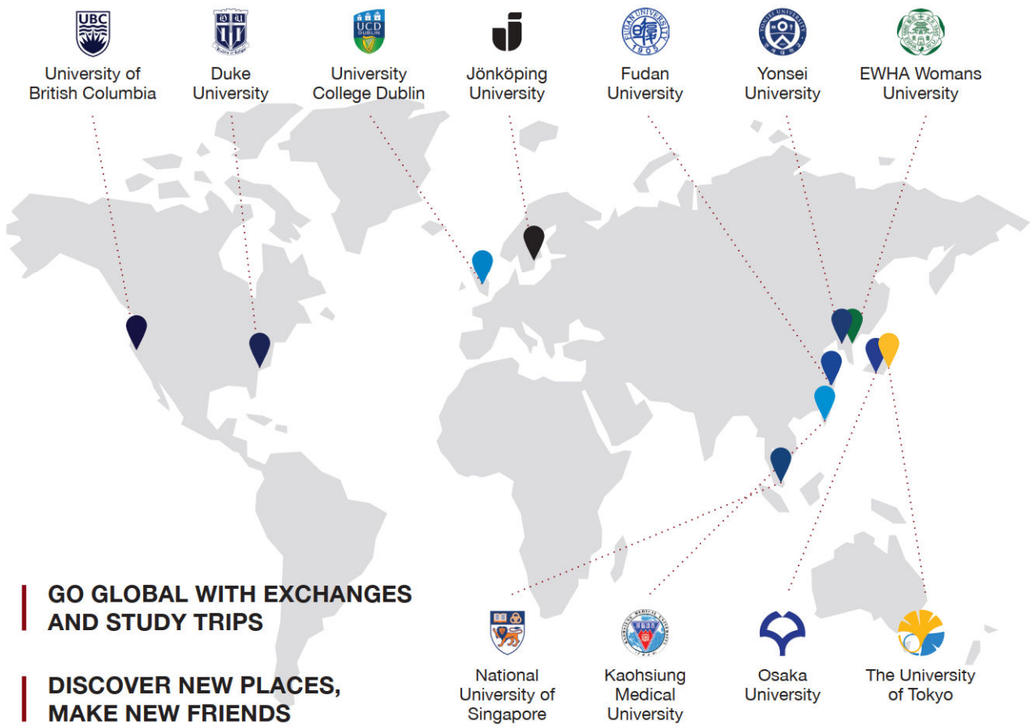
HKU'S LIFE ENRICHMENT PROGRAMME INVITES YOU TO

LEVEL UP YOUR EXPERTISE AT TOP UNIVERSITIES LIKE:



GO GLOBAL WITH EXCHANGES AND STUDY TRIPS

DISCOVER NEW PLACES, MAKE NEW FRIENDS

"**Spending a semester** at McGill University in Canada was truly transformative. We dived into challenging courses – from life sciences and pain management to educational psychology and French – that sharpened our clinical thinking and broadened our perspectives. Outside the classroom, we volunteered at the Montreal Chinese Hospital and local NGOs, shadowing nurse practitioners and healthcare assistants, which gave us firsthand insight into Canada's public healthcare system. This experience is invaluable for our future career as a nurse."
