

Integration of refugees at Ghent University, Faculty of Sciences

Internship or training
(unpaid but in combination
with “leefloon” and
insurance)

Interest in science?

Integration refugees at Ghent University, Faculty of Sciences

Offer? Internship or training (unpaid but in combination with “leefloon” and insurance)

What? Supervised training and expanding laboratory skills and techniques (added value to curriculum vitae)

For whom? those interested, or students laboratory techniques, master or PhD students (graduated or not)

e.g. histology lab skills: Preparation of the samples, sectioning, staining, operating with a light microscope, transmission electron microscope etc....

Social integration: might lead to more formal collaborations (e.g. finishing a thesis necessary for obtaining a diploma in the country of origin)

Interested in science?

Integration of refugees at Ghent University,
Faculty of Sciences.
