NOTE: Student data are based on 1,741 undergraduate and 1,613 graduate student-reported responses. Numbers and percentages are rounded to the nearest whole number. Additional data available at academiceffectiveness.gatech.edu

Co-op & Experiential Education

The **Co-op program** is an accredited academic program in which students gain valuable work experience in their major by alternating between full-time study and at least three semesters of full-time paid work with the same employer.

Internships are designed to complement a student's formal education with practical experience. They are single-semester, major-related work experiences.
