2026/2027 Application for Undergraduate Admission through Recommendation by Overseas High Schools

I. General Provisions

A. Program Duration and Graduation Requirements

They shall be individually referred to and concordant with National Taiwan University, National Taiwan Normal University, and National Taiwan University of Science and Technology (hereafter called “NTU System” abbreviated from National Taiwan University System). Applicants from overseas, Hong Kong, or Macau senior high schools with admission qualifications equivalent to the second year of senior high schools in the Republic of China are required to take additional credits apart from the graduation threshold stipulated by each university.

B. Qualification

1. Applicants graduating in the current year or graduated applicants who meet the following criteria are welcome to apply for undergraduate programs through NTU System admission:
 - a. Overseas Chinese Students refers to a student of Chinese descent who has come to Taiwan to study, who was born and lived overseas until the present time, or who has been living overseas for six or more consecutive years in the immediate past and obtained permanent or long-term residency status overseas. Please note that a minimum of eight consecutive years of overseas residency is required if the person is applying to study in a university department of medicine, dentistry, or Chinese medicine in Taiwan.
 - b. Hong Kong and Macau Students refers to students who have permanent residency of Hong Kong or Macau; and who have been living abroad for at least six consecutive years in the immediate past; and who, according to Article 4 of Laws and Regulations Regarding Hong Kong & Macao Affairs, do not have any other foreign passports. Please note that a minimum of eight consecutive years of overseas residency is required if the person is applying to study in a university department of medicine, dentistry, or Chinese medicine in Taiwan.
 - c. Hong Kong and Macau Chinese Students with Foreign Nationality refers to overseas Chinese students with foreign nationalities, possessing permanent residency of Hong Kong or Macau and have been living there for at least six consecutive years in the immediate past—without a household registration in Taiwan. Please note that a minimum of eight consecutive years of overseas residency is required if the person is applying to study in a university department of medicine, dentistry, or Chinese medicine in Taiwan. They can apply for admission in accordance with Article 23-1 of the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan.

Note: The term "overseas" refers to countries or regions other than Taiwan, mainland China, Macao, and Hong Kong. The term "abroad" refers to countries or regions other than Taiwan. The "consecutive years of overseas residency" refers to calendar

years in each of which an overseas Chinese student has not spent more than 120 days in Taiwan. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days.

2. An overseas Chinese student who received assistance to be assigned to an educational institution in Taiwan who studied for less than two years because they discontinued their studies for some reason or forfeited their student status may lodge another application to come to Taiwan to study, but only one such re-application is permitted. However, if the educational institution in Taiwan where the overseas Chinese student was studying considers that the student's conduct or academic performance was unsatisfactory, or if the student violated any ordinances or the regulations of the educational institution and the circumstances were serious and as a result, in accordance with the provisions of the regulations governing student awards and penalties, the student had to discontinue their studies or forfeited their status as a registered student, the student is not permitted to re-apply to study in Taiwan, based on the provisions of this paragraph.
3. Hong Kong and Macau Students who studied in Taiwan for less than two years because they voluntarily withdraw their studies for some reason may lodge another application to come to Taiwan to study, but only one such re-application is permitted.
4. This admission is not open to the graduates from unincorporated Chinese schools in Myanmar and Northern Thailand, as well as overseas students in Taiwan.
5. Applicants shall meet the requirements under the "[Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan](#)" and the "[Measures for Hong Kong and Macau Residents Studying in Taiwan](#)".
6. Applicants' academic qualification shall fulfill the requirements under the "[Regulations Governing the Assessment and Recognition of Foreign Academic Records by Institutions of Higher Education](#)" or the "[Standards for Recognition of Equivalent Educational Levels for University Admission](#)".

C. Application Procedures

Overseas high schools are welcome to recommend applicants for admission to NTU System. There is no limit on the number of applicants high schools recommend.

1. Application Period: From Monday, August 4, 2025, 11 am to Thursday, September 18, 2025, at 4 pm (GMT+8).
2. Website: <https://admissions.ntu.edu.tw/apply/overseas-chinese-applications/recommendation-by-overseas-high-schools/>.
3. Only online applications are accepted. Hard copy applications will not be accepted.
4. All required documents shall be uploaded in PDF file. Only the head shot can be uploaded in JPG format. If there are any audio or video files, please upload them to a website first and provide the web link and password to access the files. Please upload the files individually; only one file for each field is accepted. If applicants have multiple files for a particular field, please combine them into one file first before uploading. The merged file shall not be larger than 10MB.

5. After recommendations were made by the high school representatives, applicants shall log in to the system with their email account and complete the application before submission. Once the application is submitted, we do not accept any revisions under any circumstances. Please go through the application carefully before submission.

D. Application Notes and Regulations

1. All applicants shall be recommended by their high school to apply for the undergraduate programs through NTU System Admission. Any individual application shall not be accepted.
2. Once the application confirmed and submitted, NTU System will not accept any documents or changes in the application after the deadline has elapsed.
3. Contact Information for Application Consultation: intadmission@ntu.edu.tw

- c. Students admitted to undergraduate programs from schools overseas or in Hong Kong and Macau at the equivalent level to the second year of Senior High School in the Republic of China should take an extra 12 credits to graduate from the department.
 - d. Admission letter does not guarantee the issuance of a resident visa. Visa applications must be approved by the Republic of China overseas mission.
 - e. Prior to enrollment, new undergraduate students at the University are required to undergo a general physical examination. The items for examination and timing will be determined by the Health Center. The notification for the health examination will also be announced on the National Taiwan University New Students and Transfer Students Network prior to the end of June 2026 for new students to review.
 - f. According to Article 48 of the National Taiwan University Academic Regulations, “Students enrolled at the University from the 2013 academic year who are enrolled in two or more undergraduate programs at the same time” should be expelled from the University. Students must ensure that they do not violate this rule.
 - g. If it is discovered that admitted students do not meet the requirements for enrollment, or that submitted documents or certificates (including degree certificates, transcripts, extracurricular activities, or other relevant certificates) are forged, falsified, used under false pretenses, used fraudulently, inaccurate, or altered, the university shall revoke the eligibility for admission or expel students who are already enrolled. Students shall be liable for the legal consequences, and no proof of studies shall be issued. If this is discovered after the student has graduated from the university, aside from repealing the student's graduation certificate, an announcement shall be made revoking the student’s legibility for graduation.
 - h. Following enrollment, if departments have requirements on taking certain courses, students should select courses according to these regulations. To select courses, students shall follow program requirements under NTU Regulations after enrolling to NTU.
 - i. For any appeals to the admission result, applicants may submit a written statement to the Office of International Affairs within 14 days after the announcement of the admissions results. Office of International Affairs should provide a formal response within one month of receiving the complaint, and should form a task force for impartial investigation if necessary. If students are unsatisfied with the outcome of the appeal to the Admissions Committee, they may seek an administrative remedy in accordance with the law.
 - j. Issues not covered by the admission guidelines are either prescribed in relevant

University regulations or left to the discretion of the Admissions Committee.

- g. Department of Physics: At the Department of Physics, National Taiwan Normal University (NTNU), we take great pride in our outstanding faculty, advanced teaching and research facilities, and a thriving academic atmosphere. As one of the few departments in Taiwan that supports a wide range of physics research fields, we are committed to academic excellence across diverse disciplines. Our main research areas include condensed matter physics, semiconductor optoelectronics and nanoscience, high-energy and particle physics, astrophysics, biophysics, and physics education.

Our educational mission focuses on three core objectives:

1. To cultivate highly capable professionals in advanced physics research;
2. To train talents with strong physics backgrounds for high-tech industries;
3. To prepare outstanding physics and science educators for secondary schools.

In addition to a well-structured curriculum in physics and a comprehensive teacher training program, we offer both industrial and overseas internship opportunities. These experiences allow our students to engage directly with the high-tech industry and participate in international academic research, helping them broaden their global perspective and prepare for future career development. Our graduates pursue diverse career paths, including positions as engineers in high-tech industries, secondary and university-level educators, and professionals and leaders across various sectors.

To strengthen our global engagement:

1. We offer both an International Program (taught entirely in English) and a Chinese-taught Program at the undergraduate level. After admission, students will be placed into a track based on their individual preferences. An official form will be provided for admitted students to indicate their program choice.
 2. We have established dual degree partnerships with leading institutions, including a master's program with the Department of Physics at the University of Wisconsin–Madison (USA) and the Interdisciplinary Graduate School of Engineering Sciences at Kyushu University (Japan), and a doctoral program with the Graduate School of Science at Osaka University (Japan). We also maintain bilateral academic collaborations with numerous international research institutions, promoting joint conferences and faculty and student exchange programs.
 3. We actively recruit international degree-seeking students and are committed to expanding our English-taught curriculum to foster a professional and internationally oriented academic environment, thereby advancing the global reach of our education and research.
