

STUDYING ABROAD & FINANCIAL AID

Studying Abroad is a great opportunity to enhance your academic and professional growth.

The University of Florida encourages students to participate in the study abroad experience and considers it a valuable part of your college career. **Student Financial Aid and Scholarships (SFA)** and **Study Abroad Services** work together to coordinate the financial aspect of student participation in overseas programs.

Through the **UF International Center (UFIC)**, Study Abroad Services offers a full range of opportunities and programs from which to choose. They help students through every part of the process, from advising to application, to assisting students while abroad, and helping them when they return.

Once you have selected your program, you will need to **carefully examine your financial aid options**. Financial aid advising services are available at Student Financial Aid and Scholarships (SFA). Please email us at sfa-help@mail.ufl.edu using Study Abroad as the subject line to check your financial aid

eligibility and Satisfactory Academic Progress status as well as to determine if your budget has been received after your Study Abroad Application is approved. The OneStop is open Monday, Tuesday, Thursday, and Friday from 8:00am-5:00pm, and Wednesday from 9:00am-5:00pm (excluding holidays) and is also available by phone at 352-392-2244.

SFA will use the budget for your selected program to determine your eligibility for financial aid. Students who participate in university-approved programs may use awards from federal aid programs, state aid programs, and from UF grant and scholarship programs. However, loans are the primary source most students use for funding the additional cost for study abroad.
