BACKGROUND, VISION & MISSION

BACKGROUND

Yayasan Universiti Teknologi PETRONAS (YUTP) is an independent trust established in 2007 to promote and further the cause of education in the country and support the future development of Universiti Teknologi PETRONAS (UTP) as an academic institution of excellence. YUTP plays a key role in seeking donations and in forging new partnerships with individuals and organisations, and to ensure that donations are channeled to the rightful beneficiaries in accordance to the criteria set by the donors.

Funds secured from various fundraising initiatives are mainly to support Scholarship & Bursary, Research & Innovation, Student Development Activities and General Administrative Expenses. These 4 funds are to provide opportunities to deserving students, support cutting edge research across a broad spectrum of areas critical to the advancement of society, produce well rounded graduates and support the management and development of UTP, respectively.

VISION

A primary partner to UTP in marshaling resources to provide UTP with the philanthropic assets necessary to achieve its aspirations as a leader in technology education and centre of creativity and innovation.

MISSION

To engage business and community partners to involve in the enrichment of opportunities to the beneficiaries.

To inspire donors to invest in UTP's ability to transform lives for the betterment of the nation and world.

To ensure that contributions to YUTP are used and distributed effectively and efficiently in pursuit of UTP becoming a world's premier university by 2025.

MESSAGE FROM THE CHAIRMAN

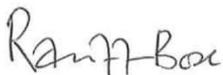

Dear Stakeholders,

Yayasan UTP has always made it a priority to address the needs of a diverse and ever-changing student population and promote their active participation in the university's challenging academic environment. We are committed to providing students with the financial resources and related services necessary to achieve their educational goals.

Many of the scholarships available at UTP are made possible by generous contributions from donors who believe in the importance of a university education and want to invest in the future of UTP students. The financial assistance is a gift that will make a difference in the life of the recipients and help these deserving students realise their potential.

As the Chairman of YUTP, I am proud to see the foundation's achievements and continuous progress in supporting the university to become a world's premier university with world-class facilities and well-rounded students who are technically competent and possess superior critical thinking and interpersonal skills.

I would like to take this opportunity to thank you for supporting us in achieving our vision and mission. YUTP will continue to focus on fundraising efforts and I look forward to your continuous support for YUTP to transform lives.

Mohamad Rauff Nabi Bax
