UNIVERSITY OF TWENTE.

LIVE, WORK AND STUDY AT UT

AS THE ONLY TRUE CAMPUS UNIVERSITY IN THE NETHERLANDS, UT OFFERS AN INSPIRING LEARNING, WORKING AND LIVING ENVIRONMENT. FROM LIBRARIES AND STATE-OF-THE-ART LABORATORIES TO SPORTS FACILITIES, RESTAURANTS AND THEATRES, YOU'LL FIND EVERYTHING YOU NEED FOR A GREAT STUDY OR RESEARCH STAY.

PEOPLE AND PLANET FIRST

Do you want to contribute to a healthier, smarter, and more sustainable world? Then you're a perfect fit to be part of our ambitious community. Our unique approach to education and research aims to come up with solutions to today's challenges. Solving those challenges calls for creative, cross-disciplinary thinking. To equip you for the future, you will learn to combine technology and engineering with behavioural and social sciences. No matter which research field or programme you follow, we strongly encourage you to cross boundaries and connect disciplines.

OUR UNIQUE APPROACH TO EDUCATION

Education at UT revolves around three core principles: multi-disciplinary projects, student-driven learning and peer-based work. You'll have the opportunity to work on real-world projects spanning various disciplines so you can directly apply your knowledge in practical settings. Our focus is not only on making a difference in society today but also on preparing the next generation for the future.

YOUR EXCHANGE OPPORTUNITIES

The vast majority of courses and modules are taught in English at UT. On our exchange website, you will discover exchange study packages (ESPs) put together for you. An ESP is a balanced, well-structured and self-contained set of modules (BSc) or courses (MSc). Depending on your academic background, you can also create your own course list that suits your interests and academic goals, or take on a research assignment in one of our cutting-edge research teams.

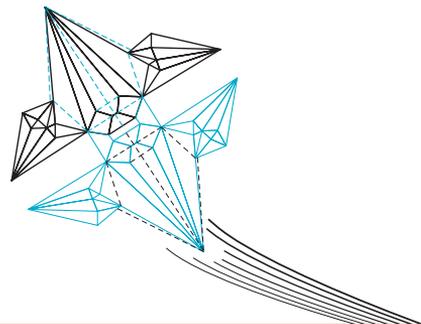

STUDENT LIFE AT UT

At UT, we believe that education goes beyond the classroom, so we place great value on extracurricular activities for personal and professional growth. This gives you the chance to collaborate with other students and professionals from diverse backgrounds and disciplines.

With over 100 sports, culture, social, study and other student associations there are always opportunities to practice your favourite hobby, discover new interests or make friends; in short, plenty of opportunities to enjoy your time outside of the classroom.

FIND HOUSING

UT assists exchange students in finding housing. For non-EEA exchange students, who will need an entry visa and/or residence permit, we provide a guaranteed offer of accommodation. For more housing information, visit utwente.nl/housing.
