GRADUATE DEGREES

To enroll for a graduate degree program, students will first need to graduate from a university undergraduate degree program. In most cases, additional admission requirements apply, such as subject-specific qualifications, language skills or a minimum grade in the first university degree. The most common type of graduate degree programs are master's degree programs, which deepen students' academic training and allow for setting an individual study focus and specializing in a specific area of the respective discipline.

- **Master of Arts (MA)**
  Degree awarded to graduates from master's degree programs in languages, cultural studies, social sciences and arts
- **Master of Science (MSc)**
  Degree awarded to graduates from master's degree programs in mathematics, natural sciences, economics, agricultural sciences, nutrition sciences engineering and psychology
- **Master of Education (MEd)**
  Teaching degree for grammar and comprehensive schools or a teaching degree for vocational schools

The University of Bonn

The University of Bonn is one of eleven German Universities of Excellence and the only one with, fom January 2026, even eight Clusters of Excellence. Recent decades have seen us produce more winners of the Nobel Prize and Fields Medal than any other German university.

An open and intercultural approach is reflected in both everyday university operations and a range of strategic partnerships and specialist networks. Hosting about 4,800 international students from over 140 various nations, the University makes a special contribution to the international flair of the city of Bonn. International researchers coming to Germany value the University of Bonn as host institution.

Our seven faculties cover a broad range of disciplines from Agricultural Sciences to Psychology. Our strong record of research in individual disciplines is supplemented by the work of six cross-faculty, interdisciplinary Transdisciplinary Research Areas (TRA) and a range of exploration and innovation areas facilitating academic exchange.

Located in Bonn, a center of research and academia, our Rhineland location places us at the heart of Europe. As the German city of the United Nations, Bonn hosts 20 UN centers and a range of international organizations. Bonn is a modern, happy and cosmopolitan city with an exceptionally high quality of life.

MASTER'S DEGREE PROGRAMS

Following its research-oriented approach, the University of Bonn offers a minimum of one consecutive master's degree program for each bachelor's degree program, aiming to deepen and specialize formerly acquired knowledge in the field. At the University of Bonn, a master's degree program designed for four semesters awards 120 ECTS credit points.

MASTER'S DEGREE PROGRAM FOR CONTINUING EDUCATION

Professionals who wish to further qualify in their field can enroll for a so-called master's degree program for continuing education. In order to be admitted, applicants must already hold a university degree and have a minimum of one year of relevant professional experience. Master's degree programs for continuing education are subject to tuition. The amount of tuition depends on the range of courses in the particular degree program and is based on the program's scale of charges.

- Disaster Management and Risk Governance (Master of Disaster Management and Risk Governance) de
  Tuition: € 14,500 total
- Drug Regulatory Affairs (Master of Drug Regulatory Affairs, MDRA) en
  Tuition: € 9,900 total
- Drug Therapy Safety Management (Master of Science, MSc) de|en
  Tuition: € 9,900 total
- Global Health en
  Tuition: € 9,7000 total
- Legal Psychology (Master of Science, MSc) de
  with a specialization in "Criminal Psychology (Psychology in Prisons and Forensic Hospitals)" or "Forensic Psychology (Statement Validity Analysis and Child Custody Evaluation)"
  Tuition: € 5,000 per year
- Political-Historical Studies (Master of Arts, MA) de
  Tuition: € 7,800 total
