

COLLEGE OF  
SCIENCES

ANNUAL REPORT  
2024-2025

## **Introduction**

Established in 2008, when the College of Arts and Sciences was split into two separate colleges, the College of Sciences (COS) at the University of Sharjah (UoS) consists of four departments after the Department of Computer Science joined the College of Computing and Informatics. The College of Sciences offers bachelor's degrees in the following majors: Applied Biology, Chemistry, Applied Physics, Mathematics, and Remote Sensing. In addition, the COS offers several postgraduate programs in Applied Biology, Chemistry, and Applied Physics. The college plans to open more postgraduate programs in applied biology, chemistry, mathematics, and Applied Physics. In addition, the College offers service courses to many students in the first and second years in other Colleges. The College also strives to elevate the standards of academic research in various advanced areas of research, teaching, and learning. As highlighted in the subsequent sections of the strategic plan, the CoS aims to spread, disseminate, and foster research through collaborations with local, regional, and international institutions.

### **1. Mission, Organization, and Governance**

#### **College Vision:**

*The College of Sciences at the University of Sharjah visions itself as a vibrant scientific and educational institution that is open and welcoming, creative and adaptable, dynamic, and regionally renowned for excellence in education, research, and community outreach programs for improving the nation and the world through its graduates, scientific discoveries, and outreach programs.*

#### **College Mission:**

*The College of Sciences is the home of the basic sciences at the University of Sharjah, one of the region's leading universities. Faculty, staff, and students work collectively to create, share, and apply knowledge in the basic sciences.*

## Teaching & Assessments

These will reflect what is done in classrooms and documented in the course files.

MATHEMATICS	
1-	Online teaching, quizzes, exercises, and final exams using the BB system and other software programs like MS Teams for the Spring 2024/2025.

2-	Weekly tutorial sessions have been started in the Spring semester 2024/2025 for the courses Business Statistics (1440264), Statistics for Science (1440181).
3-	Homework has been assigned to students
4-	Design and update the PowerPoint Slide Notes
5-	A problem-solving approach was adopted in these courses (Business Statistics, Statistics for Science, Statistics for Science (Software application focused), with a focus on Application and Practice using Real Data.
6-	Homework has been assigned to students
7-	Design Problem sets for the course Business Statistics and Statistics for Science to enhance student learning.
8-	Group Learning Techniques

### Efforts to Enhance Academic Advising:

- All faculty have been requested to meet at least once per semester with students.
- Follow closely with students who are under probation and advise them accordingly.
- Contact with advisees and keep records of their academic achievements.
