# Shape the Future: Explore Civil Engineering at University of Sharjah

## Welcome to Excellence

Welcome to the University of Sharjah, where innovation meets infrastructure! Our Civil Engineering program is your gateway to a dynamic and impactful career. We are committed to providing a world-class education that combines theoretical knowledge with practical experience. Our goal is to equip students with the skills and expertise needed to address the engineering challenges of today and tomorrow. With cutting-edge facilities, experienced faculty, and a vibrant learning environment, we foster a culture of research, innovation, and excellence. Join us and be part of a program that shapes the future of engineering and contributes to building sustainable communities worldwide.

## Why Choose Us?

- **Cutting-edge Curriculum:** Explore diverse disciplines including structural, environmental, transportation, water, and geotechnical engineering.
- **Hands-On Learning:** From designing bridges to environmental impact assessments and from accessing soil stability to designing innovative water management systems from traffic planning to managing projects, our students learn by doing.
- **Expert Faculty:** Learn from professors with strong academic and research backgrounds and robust industry collaborations dedicated to your success.
- **Global Opportunities:** Exchange programs, international projects, and industry partnerships open doors to a global career.
- **Internships & Co-Op Programs:** Gain real-world experience with industry leaders, ensuring a smooth transition to the workforce.

## Quick Facts

- **Disciplines:** Structural, Geotechnical, Environmental, Water, Transportation, and Construction Management.
- **Faculty-to-Student Ratio:** 1:12
- **Ranked in Field:** 4<sup>th</sup> in the country 235<sup>th</sup> in the world (QS Ranking 2025)

## Student Testimonials

The UoS commitment to offering a comprehensive educational experience that balances theoretical knowledge with practical applications has been instrumental in shaping my career path – Dr. Emran Alotaibi (ex-student)

“My academic work showcases the University of Sharjah’s dedication to a multifaceted educational approach, ensuring graduates are equipped with a broad spectrum of skills relevant to the evolving demands of civil engineering profession” – Dr Nadia Nassif (ex-student)

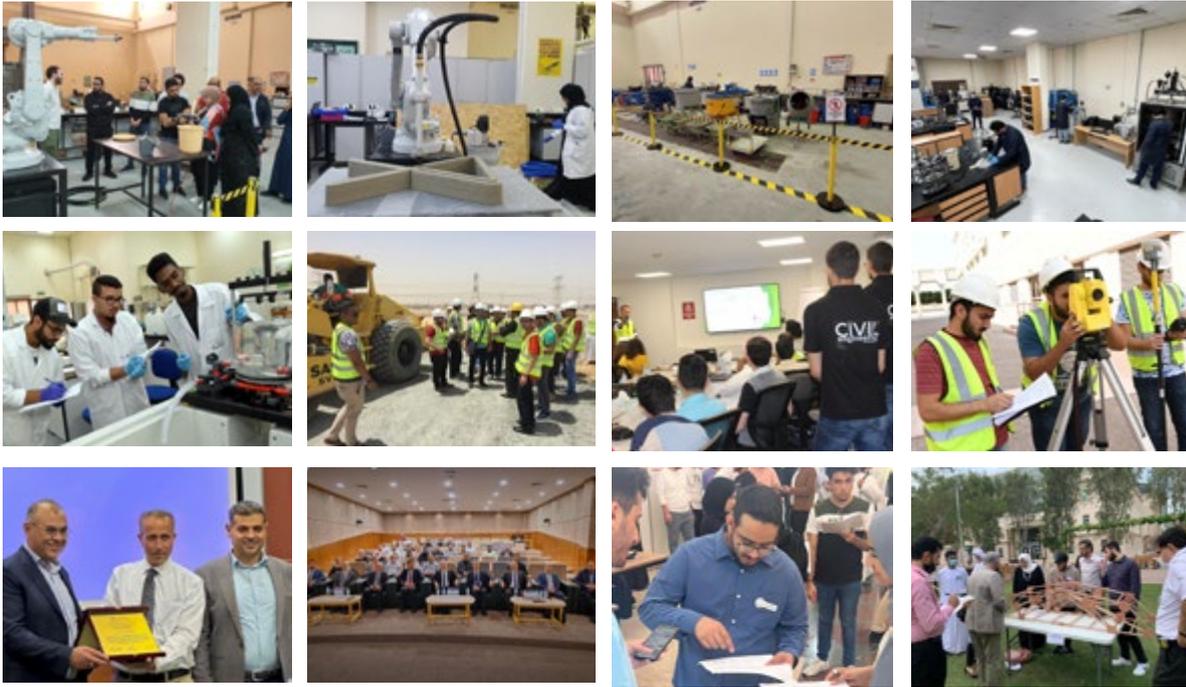

## Academic Offerings

Choose your path in structural design, environmental sustainability, transportation planning, construction management or water resources planning. Our specialized tracks prepare you for real-world challenges.

## Experiences & Opportunities

- **State-of-the-Art Labs:** Build bridges, analyze structures, and engage in real-world projects.
- **Industry Exposure:** Collaborate with industry experts and participate in global engineering projects.
- **Vibrant Student Life:** Join engineering clubs, participate in competitions, and connect with professionals.
- **Financial Support:** Scholarships and financial aid options available to make education accessible. Visit our website for details.

## Employment Opportunities

Our graduates serve the community and are employed in a variety of government and private companies. Some students choose to continue higher education and are accepted in top universities around the world.

SEWA, DEWA, RTA, Darwish, Colas, Parsons, Ministry of Infrastructure Development

## Student Clubs

American Society for Civil Engineers (ASCE) Student Chapter  
American Concrete Institute (ACI) Student Chapter

## Financial Support

Numerous financial support options are available to assist you in pursuing your engineering education. Invest in your future by exploring scholarships and financial aid programs designed to make your academic journey more accessible and affordable.
