Housing Stay Eligibility:

- i) Upon Fall semester bookings, new and returning students are entitled to check-in one week before the start of the Fall Semester based on the announced academic calendar.

- ii) Registered students must renew their housing booking by the specified deadline for both the Spring and Summer semesters to retain their accommodation until the start of the next term. Registered students who do not renew their booking by the announced deadline must vacate the housing within the weekend following the completion of the final exams. Failure to check-out on time will result in overstay charges.

- iii) Summer semester bookings entitle students to a one-week stay after the completion of the term. Any room occupancy beyond this timeline is considered an overstay and will require dorm management pre-approval.

- iv) Overstay charges are calculated @150% of the current semester fees, prorated according to the number of days beyond the allowed stay period.

- v) The Annual Contract allows students a stay duration for the whole academic year, which includes one week before the start of the fall semester to one week after the completion of the summer semester.
