Please note that

Withdrawing from studies has **consequences** on the validity of the **residence and study permit**. If you fall in this category, please contact the Admissions and Welcome unit (<https://www.unipd.it/en/international-relations>) for information on the procedure that better suits your situation.

1. Procedure – Candidates currently enrolled at the University of Padua

Those who are currently enrolled in a degree programme at the University of Padua, in order to enrol in another degree programme of study (and are not interested or cannot request a degree programme change or a simultaneous enrolment), must first close that career by submitting a withdrawal application.

Alternative 1 – Withdrawal prior to or at the same time as enrolment

Follow the steps below:

1. submit the application to withdraw from the degree programme you are attending, following the instructions on page www.unipd.it/interrompere-studi;
2. wait for the withdrawal application to be completed by the Front office unit. Contact details are available on page www.unipd.it/frontoffice-carriere-studenti
3. submit the enrolment application following the instructions for standard enrolment on page <https://www.unipd.it/en/enrolment-procedures-ita>.

The procedures must be carried out by the enrolment deadlines as per the relevant Call for admission: www.unipd.it/avvisi-ammissione-corsi. Any delays in completing the withdrawal application that may compromise the possibility of submitting the enrolment by the deadlines must be notified to immatricolazioni.studenti@unipd.it.

Alternative 2 – withdrawal postponed after acceptance of the place

In addition to what is already indicated in alternative 1, there is also the possibility of submitting the withdrawal application and completing the enrolment by 30th September 2026 (for example, in order to be able to participate in the summer exam session for the degree programme you are currently attending).

The instructions to proceed are going to be published in this document starting from 7th May 2026

2. Procedure – Candidates currently enrolled in another Italian University

Those who are currently enrolled in a degree programme at **another Italian University** (and are not interested or cannot request an incoming transfer or a simultaneous enrolment) can proceed as follows:

- Submit the **standard enrolment application** following the instructions as indicated on page <https://www.unipd.it/en/enrolment-procedures-ita>;
- Submit the **withdrawal application** to your home University.

The withdrawal application submission can be carried out before, at the same time or after the enrolment application submission. Until the beginning of academic year 2026/27, no situations of incompatibility will arise between two simultaneously active careers. After this moment, a few overlapping days between the two careers due to the office management time does not have an influence on the process, as what matters is the date of submission of the withdrawal application.

3. Procedure – Candidates currently enrolled in a foreign University

Those who are currently enrolled in a degree programme at a **foreign University** (and are not interested or cannot proceed with the simultaneous enrolment request) can proceed as follows:

- Submit the **standard enrolment application** following the instructions as per the following page <https://www.unipd.it/en/enrolment-procedures-ita>;
- Submit the **withdrawal application** to your home University.

The withdrawal application submission can be carried out before, at the same time or after the enrolment application submission. Until the beginning of academic year 2026/27, no situations of incompatibility will arise between two simultaneously active careers. After this moment, a few overlapping days between the two careers due to the office management time does not have an influence on the process, as what matters is the date of submission of the withdrawal application.
