

Evaluation criteria for Master track Building Technology, intake 2026-2028

Portfolio and Letter of Motivation give the following profile of the applicant:

- a) **Motivation**
The application demonstrates a strong interest in the Building Technology MSc programme and presents convincing reasons for choosing the programme at TU Delft.
- b) **Application of technical disciplines**
The application demonstrates the technical viability of the projects, through the appropriate application of technical disciplines such as structural design, design of construction, climate design and design informatics.
- c) **Design skills**
The application shows appropriate architectural design skills, originality and innovation of ideas.
- d) **Integral design**
The application demonstrates the capability to think and design in integrated systems and to understand technical complex relations in buildings.
- e) **Academic attitude**
The application demonstrates an academic attitude and the ability to formulate design goals, resulting from research or functional analysis, to create options or to explain the reasoning behind decisions.
- f) **Communication**
The application demonstrates the ability to communicate a variety of topics in a concise way and to express ideas effectively in words, drawings and other media. The exact contribution to the projects is clearly indicated.

All criteria must be met. Failing on one of them can lead to a rejection.
