Selection cut-off criteria for master's programs in winter semester 2024/2025

Dear prospective students,

The second page of this communication provides information on selection cut-off criteria for the **quota of places allocated on the basis of the selection procedure** (80% of available master's study places) as well as for the **quota of places allocated on the basis of waiting periods** (20% of available master's study places).

The data provided always refers to the last person to be awarded a place in a master's program within the respective allocation quota.

Cut-off criteria always refer to past semesters. It is not possible to predict cut-off criteria for coming semesters, as these can only be calculated once an admission procedure is complete.

Selection cut-off criteria for master's programs apply to all applicants who meet the subject-specific admission requirements for a program.

The selection procedure results in an overall score calculated on the basis of the points awarded for individual selection criteria.

You can find information about the selection procedure and the procedure for allocating places as well as the individual selection criteria for the program you wish to study at <https://www.tu.berlin/go2942/>.

Information about waiting periods can be viewed at <https://www.tu.berlin/go1649/>.

Sincerely,
Graduate Admissions

Degree program	Winter semester 2024/2025	
	Places awarded according to selection procedure	Places awarded according to waiting period
Architecture	85.6 pts/ 00 WP	07 WP
Architecture - Typology	83.6 pts/ 03 WP	12 WP
Biomedical Engineering	All applicants admitted	All applicants admitted
Building Archeology and Heritage Conservation	All applicants admitted	All applicants admitted
Civil Engineering	All applicants admitted	All applicants admitted
Civil Systems Engineering	56.7 pts/ 06 WP	11 WP
Computational Neuroscience	81.3 pts/ 00 WP	12 WP
Design & Computation	75,9 pts/ 02 WP	12 WP
Ecology and Environmental Planning	All applicants admitted	All applicants admitted
Environmental Planning	All applicants admitted	All applicants admitted

Urban Ecosystem Sciences	All applicants admitted	All applicants admitted
Urban and Regional Planning	75.3 pts/ 00 WP	02 WP
Urban Design	79.5 pts/ 00 WP	12 WP

Key:

Pts: points awarded as part of the selection procedure
 WP: waiting period
 P: priority in case of equal ranking
 S: selected admission, see example 1

Examples:

1. Places awarded according to qualifications: e.g. 54.0 pts. / 00 WP S

All applicants were admitted who achieved a score of more than 54.0 points (out of 100) in the selection procedure for the program.

All applicants with a score of 54 points were also admitted if they were able to demonstrate a waiting period of more than 1 semester.

Only some applicants with 54 points and no waiting period were admitted. Places for these applicants were allocated by drawing lots.

2. Allocation according to waiting time: e.g. 2 WP

All applicants were admitted who had completed a waiting period of at least 2 semesters or more.

3. All applicants admitted

All applicants meeting the subject-specific admission requirements were admitted.
