GEOGRAPHY & GEOGRAPHIC INFORMATION SCIENCE: HUMAN GEOGRAPHY, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences in Geography & Geographic Information Science, Human Geography Concentration

A Bachelor of Arts in Geography & Geographic Information Science, with the Human Geography concentration, prepares students to explore the social science aspect of modern geography. The curriculum includes the systematic study of human social organization and its environmental consequences.

Employment opportunities for human geographers include urban and regional planning, transportation, marketing, real estate, tourism, and international business.

Departmental distinction: Students majoring in Geography & Geographic Information Science (GGIS) can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

- Distinction: 3.3 GPA overall; 3.3 GPA in GGIS courses.
- High distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses.
- Highest distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses; satisfactorily complete an honors independent project (GGIS 391).

Please visit our department website (https://ggis.illinois.edu/academics/undergraduate-programs/distinction-and-departmental-awards/) for more distinction information and consult with a GGIS advisor about it as soon as you join the major (no later than the end of junior year).

Graduation Requirements

Minimum hours required for graduation: 120 hours
Minimum required major and supporting coursework: A minimum of 35 credit hours of Geography & Geographic Information Science courses. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300 and 400 level. These hours can be drawn from all elements of the degree, including courses outside of GGIS. Students should consult their academic advisor for additional guidance in fulfilling this requirement. The university and residency requirements can be found in the Student Code (https://studentcode.illinois.edu/article3/part8/3-801/) (§ 3-801) and in the Academic Catalog (http://catalog.illinois.edu/general-information/degree-general-education-requirements/).

General Education Requirements

Follows the campus General Education (Gen Ed) requirements (https://courses.illinois.edu/gened/DEFAULT/DEFAULT/). Some Gen Ed requirements may be met by courses required and/or electives in the program.

Sample Sequence

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence.

Students must fulfill their Language Other Than English requirement by successfully completing a fourth level of a language other than English. See the corresponding section on the Degree and General Education Requirements page *(http://catalog.illinois.edu/general-information/ degree-general-education-requirements/).*

Geographic Understanding

GGIS students will understand the interconnectedness of places and scales in human-environmental systems, including the sustainability of those systems.

Spatial Patterns and Processes

GGIS students will be able to analyze spatial patterns, distributions, processes, and connections within and among different human-environmental systems, using qualitative, quantitative, computational, and/or spatial methods of research appropriate to their level of training and their field of geographic inquiry.

Problem-Solving and Communication

GGIS students will be able to formulate and conduct geographic analyses and communicate the results in verbal, written, and visual form.
