

AGRICULTURAL & BIOLOGICAL ENGINEERING: OFF-HIGHWAY VEHICLE AND EQUIPMENT ENGINEERING, BS

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Off-Highway Vehicle and Equipment Engineering Concentration

Graduates design, manufacture, and test equipment and control systems for off-highway vehicle industries, including agriculture, construction, and mining. These vehicle and equipment systems must be designed to operate in surroundings that present unique challenges for operating efficiency, safety and environmental impact.

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Off-Highway Vehicle and Equipment Engineering Concentration

Graduation Requirements

Minimum Overall GPA: 2.0

Minimum hours required for graduation: 128 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (<https://studentcode.illinois.edu/article3/part8/3-801/>) (§ 3-801) and in the Academic Catalog (<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

General Education Requirements

Students must complete the campus General Education (Gen Ed) requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>), including the campus Gen Ed language requirement.

Code	Title	Hours
	Composition I	4-6
	Advanced Composition	3
	fulfilled by ABE 469

Sample Sequence

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may

impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence.

Students must fulfill their Language Other Than English requirement by successfully completing a third level of a language other than English. See the corresponding section on the Degree and General Education Requirements (<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

Free Electives: Additional course work, subject to the Grainger College of Engineering restrictions to Free Electives (<https://go.grainger.illinois.edu/FreeElectives/>), so that there are at least 128 credit hours earned toward the degree.

*for the degree of Bachelor of Science in Agricultural & Biological Engineering,
Off-Highway Vehicle and Equipment Engineering Concentration*

The Agricultural and Biological Engineering BS is accredited by the Engineering Accreditation Commission of ABET, Inc. (abet.org).

In accordance with the ABET educational criteria, the program has been developed so that graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.
